

PRIVACY POLICY SHARE YAZILIM LİMİTED ŞİRKETİ

This Privacy Policy governs our data practices in connection with your use of the SHARE YAZILIM LİMİTED ŞİRKETİ. This Privacy Policy is compliant with the General Data Protection Regulation.

SHARE YAZILIM LİMİTED ŞİRKETİ is an app development studio that creates a wide variety of Apps. We deliver top-ranked Apps to worldwide app stores. Our Apps are designed for Apple and Google platforms, operating systems (macOS/iOS/iPadOS/Android), and devices (phones, tablets, watches, etc.). We create apps that can be downloaded freely and function based on an advertising model. For many of our Apps, we also make a paid version that does not contain advertising. In general, if you do not want us to use your data to tailor the ads displayed within the App, you can choose to use a version that does not contain advertising.

By using the App, you consent to our data processing as this Privacy Policy outlines. Our terms for using Apps (which can be found here: <https://spamsmsblocker.com>) apply to your use of the Apps.

1. What data do our Apps obtain?

1.1 We collect data about you and how the Apps are used in various ways.

a. Automatically Collected Data – The Apps collect specific data automatically, such as the type of device you use, device identifiers, such as the resettable advertising identifier assigned to your device, the IP address of your device, geographical data such as the location of your device, your operating system, Wi-Fi mac address in your area, the type of internet browsers you use, data connection status and success/failure of connection, and data about the way you use the App, installed applications on your device, and other non-personal data as reasonably required by us to enhance our services. If you activated ‘Location’ in your device's settings and allowed the App to collect data about the precise location of your device, the App will collect such data. Furthermore, we may collect location data using network triangulation, GPS, and Wi-Fi IP address to determine your general device location. We may also collect location and other diagnostic data through the Apps for network analytics and troubleshooting.

b. User-Provided Data – The App obtains the data you provide when you download and use the App. We may ask that you provide: (a) your name, email address, age, username, password, and other registration data; (b) transaction-related data, such as when you make purchases, respond to any offers, or download or use Apps from us; (c) data you provide us when you contact us for help; and (d) data you enter into our system when using the App, such as contact data.

c. We may also get data from other sources and may combine it with data collected about you.

2. Data Sharing and Advertising

2.1 To the extent feasible, we only use your data in an anonymized, hashed, or obfuscated way. We only use personally identifiable information to the extent required to provide our services.

2.2 We may share your data with third parties as this Privacy Statement describes. We may disclose your data (a) as required by law, such as to comply with a subpoena or similar legal process, (b) when we believe in good faith that disclosure is necessary to protect our rights, protect your safety or the safety of others, investigate fraud, or respond to a government

request, (c) with our trusted services providers who work on our behalf, which do not have an independent use of the data we disclose to them, and have agreed to adhere to the rules outlined in this privacy statement, and (d) with third-party advertising networks and analytics companies as described below.

2.3 We may use and share the data, including the Automatically Collected Data and the User-Provided Data, in an anonymized, hashed, or obfuscated way for purposes of advertisement by us or our partners. We do not pass any personally identifiable data to ad networks or advertisers. The data may be used to serve users advertisements based on users' presumed interests and present advertisements in third-party applications or other platforms. We work with advertisers and third-party advertising companies that collect data about how you interact with advertising and content provided in the App, which helps us keep the cost of the App free. Advertisers and advertising companies use some of the data collected by the App, including the advertising identifier assigned to your device, to serve advertisements targeted to your interests in the App. These third parties may also obtain anonymous data about other applications you've downloaded to your device, the websites and applications you visit, and your location to help analyze user behavior and serve targeted advertising on the App and other applications and websites. We may use and share your location data to provide you with localized data, including localized advertising, within the App. To learn how to opt out of using data collected from the App for targeted advertising purposes, please see the 'Managing Your Data' section of this Privacy Policy.

2.4 We may work with analytics companies to help us understand how the App is being used, such as the frequency and duration of usage.

2.5 If you have allowed us to collect data about your precise location by activating 'Location' in your device's settings, we may share it with our ad network partners to tailor the ads displayed within the App.

2.6 The paid versions of our Apps generally do not contain advertising and will not use your data for this purpose. In the Apps that do not contain advertising, the data collection software will still collect data but will not use it to serve interest-based advertising.

3. Managing Your Data

3.1 You can quickly stop the app from collecting data by uninstalling it. You may use the standard uninstall processes available on your device or via the application marketplace or network.

3.2 You may immediately opt out of allowing the App to access your precise location data by deactivating 'Location' in your device's privacy settings.

3.3 Most modern devices provide advertising identifiers. These identifiers have different names depending on the brand of your device. For example, they are called Identifier for Advertisers (IDFA) on iOS/Apple devices. These operating systems let you see your advertising identifier in your device's settings, and you control how it is used. It includes options for changing your identifier and opt-out of cross-app advertising. The features or functionality hereof may change at the discretion of the operating systems. To opt out of the use of data collected by our advertising partners across different applications to serve ads that are targeted to your interests, please consult the settings available on your device (for instance, 'Limit Ad Tracking' on your iOS/Apple device).

4. Business Transfers

4.1 Your data may be disclosed as part of any merger, acquisition, or sale of company assets. In the unlikely event of an insolvency, bankruptcy, or receivership, your data may also be transferred as a business asset.

5. Children

5.1 We do not knowingly use the Apps to solicit data from or market to children under 16. If a parent or guardian becomes aware their child has provided us with data without their consent, they should contact us at support@blox.app. We will delete or anonymize such data from our files within a reasonable time.

6. Security

6.1 We are concerned about safeguarding the confidentiality of your data. We provide physical, electronic, and procedural safeguards to protect the data we process and maintain. For example, we limit access to this data to authorized employees and contractors who need to know that data to operate, develop, or improve our Apps. Please be aware that although we endeavor to provide reasonable security for the personal data we process and maintain, no system can prevent all potential security breaches. As stated above, we use anonymization techniques to limit the use of personally identifiable information as much as possible.

7. Data Retention Policy

7.1 We will retain User-Provided Data for as long as you use the App and for a reasonable time afterward. We will retain Automatically Collected data for up to 12 months, and after that, we may store it in aggregate. If you'd like us to delete the data you provided via the app, please get in touch with us at support@blox.app, and we will respond within a reasonable time. Please note that some or all the User-Provided Data may be required for the App to function correctly.

8. Subscriptions

8.1 You may access parts of SHARE YAZILIM LİMİTED ŞİRKETİ for free, and other services and products require payment of subscription fees or in-app purchases. To access the premium features of our apps, which have additional features, including (but not limited to) ad-free experience, premium support, and instant updates, you must pay via an auto-renewing subscription from Apple's iTunes store. You may receive ads from SHARE YAZILIM LİMİTED ŞİRKETİ suggesting new features or other apps from our portfolio.

8.2 SHARE YAZILIM LİMİTED ŞİRKETİ auto-renewable subscriptions are purchased via an iTunes auto-renewing subscription. This means your subscription is automatically renewed at the end of the subscription period.

8.3 You can modify or cancel your subscription anytime from within the application by signing in to your iTunes account on your computer or iOS device and changing the settings.

8.4 If you purchase a subscription with automatic renewal, you acknowledge and agree that we are authorized to charge you through your iTunes account for the renewal. You will be charged for the regular subscription price within 24 hours before the end of the current term. You can turn off automatic renewal in your iTunes account settings, but you must do so at least 24 hours before the end of the current term to avoid renewing. Refunds will not be provided for the unused portion of any term.

8.5 For more details: iOS: <http://support.apple.com/kb/HT4098>

8.6 Apple manages your payment via iTunes, and you will need to contact Apple's customer service for refunds, as we cannot process refunds ourselves. Please note that if you purchase a subscription through the Apple iTunes Store or our iPhone or iPad applications, the sale is

final, and we cannot provide a refund. Your purchase will be subject to Apple's applicable payment policy, which also may not provide for refunds.

9. Changes

9.1 This Privacy Policy may be updated from time to time. We will notify you of any changes by posting the new Privacy Policy here: <https://spamsmsblocker.com>. You are advised to consult this Privacy Policy regularly for any changes.

10. Personal and Sensitive User Data

10.1. Notifications

We do not share your data with any institution or organization. All sent or received data is encrypted and protected. No 3rd party SDKs are used for sensitive data.

No data is stored on our servers.

If you have any questions, please get in touch with us at support@blox.app
